Location:- C.S. No. 9712, Near Shaktinagar on Laxman Tekri-Ambjai Highway Link Road, Palanpur.

I received a request to visit the campus and issue structural soundness.

Accordingly, I visited the building on April 20, 2024 and found following technical details of the building.

- 1) Structure: G+1 storied RCC Frame Structure/Load bearing Brick wall
Well planned school campus/education building
Well ventilated class rooms, offices, wide corridors, hall and provision of ramp for handicapped students
- 2) Construction Area: Ground Floor ----- 1796.29 Sq.Mtr.
First Floor ----- 1220.00 Sq.Mtr.
Total construction area as per attached plan 3016.29 Sq.Mtr.

Doors/windows:- Wooden doors and windows shutters with grill

I have personally visited the building and I have found it satisfactory and safe to the best of my knowledge and belief the present building is structurally safe as per plans and structure design.

According to me the building is structurally safe and sound.
